Currency	EUR
Status	OECD approved

#### Description

The objective of the project is to support development of civic society and enhancing higher quality of governance in border regions in Western Ukraine - Zakarpattia, Lviv, Ivano-Frankivsk, Chernivtsi regions. Thru very successful tool of the grant scheme young people - NGOs representatives will have a chance to implement small community developmental activities. The condition of grant scheme will be to involve citizens and local state administration and self-government representatives into projects too. With such an approach, which develops a key principle of goods governance - principle of participativeness we want to contribute to higher quality of governance of territory. Before the creation of project proposals young people will have a chance to take part in the project management training and later in the presentation skills training. Representatives of those NGOs, which will be awarded, will have a chance to get through a study tour to Slovakia with the aim to be more familiar with the Slovak NGOs environment, exchange experience and make direct contacts. Two conferences, which main goal is to transfer Slovak experience from reform processes are part of the project too. It goes not only about experience from civic society building, but from decentralization process as a part of public administration reform too. The issue of decentralization is after "the Dignity revolution" hot issue in Ukraine and more it is a condition and part of the Minsk Protocol on cease fire in the Eastern Ukraine. There is a space in the project for networking activities, thru discussion fora for both conference themes. The project "Truly together 2.0" is tied up with the ending project and comes of its experience and recommendations of our Ukrainian partner.
