Description

The aim of this project is to contribute to the improvement of the quality of higher education in Afghanistan through the development of technical equipment and facilities, development of human potential, building and establishing cooperation of Slovak and Afghan universities and institutions and transfer of knowledge and know-how from Slovakia. The aim of this project corresponds with the development strategy of the Afghan government, the strategy of the international community operating in Afghanistan and the official development cooperation strategy of Slovakia. The project concurs with the very successful results of the cooperation of the applicant and the Afghan universities in the framework of already realized projects. Education and vocational training of young people is one of the basic preconditions of stability and development of Afghanistan and is one of the main national priorities of Afghanistan and the international community contributing to the reconstruction of the country. This project aims to to intervent to the solution of these problems.
