Description

The main objective of the activity is to transfer experience on the preparation and implementation of the development plan of the village Kechnec in order to use this knowledge and experience in planning and managing the development of the village Jezero located in Bosnia and Herzegovina. Municipality of Kechnec can serve as a good example for Jezero municipality in connection with the development of industrial capacities as well as increasing the population of the village. In both cases, the municipalities are located nearby (in the wider agglomeration of large cities - Košice and Jajce). For this reason, the experience of the municipality of Kechnec (which is able to take maximum advantage of the benefits from the vicinity of Košice) is largely applicable also in the conditions of the municipality of Jezero.
