Implementing Organization Code	Other
Geo Location	
Longitude	
Latitude	
Start of Commitment	2010-11-10
End of Commitment	2013-09-21
Currency	EUR
Status	OECD approved

Description

The aim of the project is to introduce the

larval therapy - a treatment of the non-healing wounds with live, disinfected larvae - in human and veterinary medicine in Kenya. To achieve this goal a facility for the production of disinfected larvae will be constructed within the premises of the Kenyan partner - KARI-TRC. This facility will then supply the Kenyan clinical departments which would use this method in the treatment of the non-healing wounds.

Commitments and Amount Extended (EUR)

Reporting Year	Commitments	Amount Extended
2013	0 €	16 719 €
Total	0 €	16 719 €
