#### Description

The aim of the submitted project is to provide regular weekly health care services in the remote areas through the mobile center for payam Terekeka, with 22,696 inhabitants (PHCC Terekeka, PHCC Digalia, PHCU Nyikabur, and PHCU Lokweni). The Mobile clinic will consist of one car that will secure transport of personnel, pharmaceuticals, and patients and will provide these services to areas (bumas) of Nyikabor, Bulukulik, Buko, and Gondi.

Activities of the project include provision of primary health care, preventive care, and activities for the support of health based on evaluation and identification of needs in the field of health care in each of involved areas. The applicant will provide the health care not only through direct health care services, but also through educational activities.
