Description

The applicant has already realized 4 projects focused on the area of global education in partnership with Technical University in Zvolen: • GE at the Faculty of ecology a environmental science (09/2013 – 03/2015) • GE in context (09/2014 – 12/2015) • GE for universities of the 21st century (09/2015 – 12/2016) • Academics- actively and practically (11/2016- 6/2018 The continuity and systematic approach with a diverse group of university professors showed to be an effective way of integrating global issues into the education process at universities. Thanks to the approach and the previous projects the applicant successfully introduced global education at 6 slovak universities (Univerzita Komenského- Bratislava, Trnava, Poľnohospodárska Univerzita- Nitra, Technická Univerzita- Zvolen, Univerzita Mateja Bela- Banská Bystrica, Prešovská univerzita- Prešov). As the project works with an extremely diverse group of professors, whose expertise ranges from economy to environmental education, from foreign languages to social work, tourism and political studies, the main focus of the grant proposal is to train the university staff in various innovative, activating methods of work with students within the broad spectrum of global education topics. These teachers become experts, they create their own methodologies that implement global education into their own field of expertise. The topics of global education will be consequently presented at a conference and will be shared online even with universities and departments, that are not directly part of the project. • General goal of the project The general goal of the project is to support a continual incorporation of principles and topics of global education into the education process of various university courses at 5 participating universities. The tools of education should bring new innovative practices that will activate the students and deal with the pressing issues of current society. This goal will be pursued on several concurrent levels, which will be described in more detail within the specific goals. • Specific goals of the project The specific goals of the project include: 1. Innovation of curricula and creating a network of expert university teachers who apply the topics and methods of global education in their teaching within their specializations. Training of university staff during four 3-day workshops at the Education centre in Zaježová in the following topics: Techniques of global education curriculum creation and their subsequent evaluation Principles of nonviolent communication in global education
