

# AID DETAILS

## BILATERAL AID

### Deployment and sale of photovoltaic-powered ESS and microgrids / off-grid for power supply and grid stabilization to replace diesel generators

#### General Information

<b>Funding entity</b>	<b>Slovak Aid</b>
Recipient Country	Kenya
Implementing Organization	ELVOSOLAR
Implementing Organization Code	Private sector in provider country
Geo Location	Nairobi, KE
Longitude	36.81667
Latitude	-1.28333
Start of Commitment	2020-07-21
End of Commitment	2022-09-30
Currency	EUR
Status	OECD approved

#### Description

The aim of the project is the presentation of solar solutions, which represent reliable, accessible and especially quick solution of electricity shortage especially in the remote parts of the country and establishing partnerships that the company could use in the implementation of other projects. In cooperation with the Export-Import Bank of the Slovak Republic (Eximbanka SR), which provides tied business assistance for low-income countries, we are able to offer solutions with high quality and efficiency under very favorable financial conditions. A specific objective is to increase interest in the construction and deployment of solar systems in Kenya in cooperation with the Export-Import Bank SK.

## Commitments and Amount Extended (EUR)

Reporting Year	Commitments	Amount Extended
2020	172 300 €	0 €
2021	0 €	71 939 €
2022	0 €	91 200 €
<b>Total</b>	<b>172 300 €</b>	<b>163 139 €</b>

## Sectors share

Sector name	Share
Solar energy for isolated grids and standalone systems	100.0 %

## Statistics

Statistics show the proportion of the Deployment and sale of photovoltaic-powered ESS and microgrids / off-grid for power supply and grid stabilization to replace diesel generators project compared to the implementing subject and the type of flow
