

AID DETAILS

BILATERAL AID

Support for the use of renewable energy sources and capacity building in the field of environmental protection at the Georgian Technical University

General Information

Funding entity	Slovak Aid
Recipient Country	Georgia
Implementing Organization	Slovenská Technická Univerzita v Bratislave
Implementing Organization Code	University, college or other teaching institution, research institute or think-tank
Geo Location	Tbilisi, GE
Longitude	44.83368
Latitude	41.69411
Start of Commitment	2022-09-26
End of Commitment	2024-03-31
Currency	EUR
Status	OECD approved

Description

The aim of this project is to contribute to the construction of infrastructure and the sustainable use of natural resources in Georgia by improving the quality of life and health of the Georgian population through efficient and sustainable use of renewable energy sources (RES), development of education for women and men in RES and environmental protection, raising citizens' awareness of the fight against climate change and developing trade relations between Georgia and the Slovak Republic. The specific objective of the project is to increase the share of renewable energy use and environmental capacity building in Georgia through the development of sustainable technical infrastructure in the field of energy, support of a public university in capacity building, building and establishing cooperation between Slovak and Georgian institutions and knowledge transfer in the field of environmental protection from Slovakia. Combating climate change, saving resources, protecting the environment, the knowledge-based economy, education and equal opportunities for all without gender, religion, ethnicity and other differences are the main attributes of this project. The most important results of the project will be: Fully equipped renewable energy center for solar and thermal energy production and for providing practical training and demonstration of renewable energy sources at the Georgian Technical, trained home lecturers in Slovakia who will provide post-project training and 50 local students with improved knowledge and skills in the field renewable energy sources and environmental solutions.

Commitments and Amount Extended (EUR)

Reporting Year	Commitments	Amount Extended
2022	164 073 €	98 444 €
Total	164 073 €	98 444 €

Sectors share

Sector name	Share
Energy generation, renewable sources - multiple technologies	100.0 %
