Description

The project aims to renovate and equip a women's locker room in the club premises, which will serve about 100 female players. It will also create office space for the women's football team with modern computer and projection technology. The creation of spaces for sporting activities for girls and women from the town and the surrounding area will have a positive impact on health, social inclusion and gender equality. This is particularly important in an economically less developed and highly patriarchal part of the country.
